# WENOSAN®

## Measuring instructions Compression stockings

## Measuring for VENOSAN® medical compression stockings and pantyhose

taken in the **morning** for patients whose legs have a pronounced tendency to swell.

Measurements should be

When are the measure-

ments taken?

#### How are the measurements taken?

- **Standing** upright using a measuring tape.
- Take the circumference and length **measurements** from the foot up to the thigh at the measuring points shown below.
- Each **circumference** has its own **length**.
- Measure the lengths with the leg held
- **Both** legs must be measured separately.

#### Where are the measurements taken?

The relevant positions are shown in the figures below

### □: see www.venosan.com □ For EUROPE □ SUPPORT □

Videos how to measure for Standard size and custom made stockings

#### Circumferences:

#### Below knee

cA - circumference of the forefoot

Measure behind the ball of the foot and behind the base of the small toe

cY - circum-

the heel and

the instep

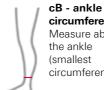

dorsiflexion.

ference around

Measure around

the heel and in-

step at maximum

circumference Measure above the ankle (smallest

cC- circum-

Measure

around the

largest calf

circumference.

ference of the

circumference).

ference of the lower calf

Measure at the lower calf, i.e. the origin of the Achilles tendon

cB1 - circum-

cD - circumference below the knee

Measure around the narrowest part below the knee approx. 2-3 cm below the pit of the knee.

#### Lengths:

#### Below knee

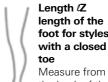

Length ℓA length of the foot for styles with an open toe Measure from the back of the heel to behind the ball of the

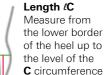

Length &B Measure from the lower border of the heel to the level of the **B** circumference.

foot.

Measure from the back of the heel to the tip of the large toe.

#### Length ℓD Measure from the lower border of the heel up to the level of the **D** circumference.

#### Thigh length stockings

Measurements in addition to the basic measurements for knee socks

cE - circumference at the middle of the knee

Measure around the patella and pit of the knee with the knee slightly bent.

cF - circumference at the middle of the thigh Measure approx. 12-14 cm above

cG - circumference at the top of the thigh Measure approx. 5 cm below the crotch &.

#### Thigh length stockings

Measurements in addition to the basic measurements for knee socks

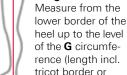

Length ℓE Measure from

the lower border of the heel to the level of the E circumference with the leg held straight.

Measure from the lower border of the heel up to the level of the  ${f F}$ circumference (length incl.

topband).

topband).

Length ℓG

#### **Pantyhose**

Measurements in addition to the basic measurements for knee and thigh length stockings

cH - hip circumference Measure around the widest part of the hips.

cT - waist circumference Measure above the waist.

#### **Pantyhose**

Measurements in addition to the basic measurements for knee and thigh length stockings

Length ℓK Measure from

the lower border of the heel up to the crotch (stride

Length &T Measure from the lower border of the heel up to

the waist.

Length from the crotch up to the

Length from the crotch over the buttocks up to the waist.
